Vaccination and Hospital Boarding Policies

All pets that board with us must be current on vaccines. If your pet is not current, by signing this form you agree to pay all cost incurred in updating your pet's vaccinations. This policy is for the safety of your pet as well as the safety of the other guests in the kennel.

Because boarding can be a stressful experience, we occasionally find that a pet becomes ill during their stay. If your pet requires medical attention, by signing this form, you give the doctors and staff of Greene Animal Hospital authorization to treat your pet should such a medical situation arise. Also, you agree to pay for any expenses incurred in treating your pet.

All boarding pets must be free of fleas and other intestinal and external parasites. If any of these are noted before or while boarding, you agree to pay for the cost of treating your pet.

Aggressive Animal Fee

In the event that a boarding animal becomes aggressive and poses a threat to our staff's safety, we reserve the right to assess an additional aggressive animal fee. The hospital will attempt to contact you or your emergency contact to give you the option of paying the additional fee or taking your pet home.

**I understand that all fees are due at the time that services are rendered. In the event of default or failure to pay, I the undersigned, agree to pay all attorney's fees and collection cost of said debt. **
